DEFINITIONS

Standard

Production runs planned at regular intervals

Semi-Standard

Production runs depending on market requirements

On request

No planned production runs, minimum order quantity required.

Please ask for the particular minimum order quantity as far as solid sheets are concerned.

makrolon®

The manner in which you use and the purpose to which you put and utilize our products, technical assistance and information (whether verbal, written or by way of production evaluations), including any suggested formulations and recommendations, are beyond our control. Therefore, it is imperative that you test our products, technical assistance, information and recommendations to determine to your own satisfaction whether our products, technical assistance and information are suitable for your intended uses and applications. This application-specific analysis must at least include testing to determine suitability from a technical as well as health, safety, and environmental standpoint. Such testing has not necessarily been done by Covestro. Unless we otherwise agree in writing, all products are sold strictly pursuant to the terms of our standard conditions of sale which are available upon request. All information and technical assistance is given without warranty or guarantee and is subject to change without notice. It is expressly understood and agreed that you assume and hereby expressly release us from all liability, in tort, contract or otherwise, incurred in connection with the use of our products, technical assistance, and information. Any statement or recommendation not contained herein is unauthorized and shall not bind us. Nothing herein shall be construed as a recommendation to use any product in conflict with any claim of any patent relative to any material or its use. No license is implied or in fact granted under the claims of any patent.

ÄNDERUNGEN IM LIEFERPROGRAMM MAKROLON® MULTI UV

Bei einigen Produkten hat sich der Status (Standard, Semi-Standard, Auf Anfrage) geändert.

PRODUKTINFORMATIONEN: TECHNISCHE DATENBLÄTTER, BROSCHÜREN ETC.

Wir überarbeiten unsere Dokumentation in regelmäßigen Abständen und stellen sie auf unserer Website unter www.sheets.covestro.com zur Verfügung.

Es liegt außerhalb unserer Kontroll- und Einflussmöglichkeiten, in welcher Art und Weise und zu welchem Zweck Sie unsere Produkte, technischen Unterstützungen sowie Informationen (unabhängig ob mündlich, schriftlich oder anhand von Produktionsbewertungen erhalten), einschließlich vorgeschlagener Formulierungen und Empfehlungen, anwenden und/oder einsetzen. Daher ist es unerlässlich, dass Sie unsere Produkte, technischen Unterstützungen und Informationen sowie Formulierungen und Empfehlungen eigenverantwortlich daraufhin überprüfen, ob sie für die von Ihnen beabsichtigten Zwecke und Anwendungen auch tatsächlich geeignet sind. Eine anwendungsspezifische Untersuchung muss mindestens eine Überprüfung auf Eignung in technischer Hinsicht sowie hinsichtlich Gesundheit, Sicherheit und Umwelt umfassen. Derartige Untersuchungen wurden nicht notwendigerweise von Covestro durchgeführt. Der Verkauf aller Produkte erfolgt – sofern nicht schriftlich anders mit uns vereinbart – ausschließlich nach Maßgabe unserer Allgemeinen Verkaufsbedingungen, die wir Ihnen auf Wunsch gerne zusenden. Alle Informationen und sämtliche technische Unterstützung erfolgen ohne Gewähr (jederzeitige Änderungen vorbehalten). Es wird ausdrücklich vereinbart, dass Sie jegliche Haftung (Verschuldenshaftung, Vertragshaftung und anderweitig) für Folgen aus der Anwendung unserer Produkte, unserer technischen Unterstützung und unserer Informationen selbst übernehmen und uns von aller diesbezüglichen Haftung freistellen. Hierin nicht enthaltene Aussagen oder Empfehlungen sind nicht autorisiert und verpflichten uns nicht. Keine hierin gemachte Aussage darf als Empfehlung verstanden werden, bei der Nutzung eines Produkts etwaige Patentansprüche in Bezug auf Werkstoffe oder deren Verwendung zu verletzen. Es wird keine konkludente oder tatsächliche Lizenz aufgrund irgendwelcher Patentansprüche gewährt.

makrolon®

TOLERANCE ON THICKNESS SOLID SHEETS

Thickness in mm	Tolerance
0,5 (Vivak®)	-0.05 / +0.15 mm
0,75 - 2 mm	± 10 %
> 2 mm	± 5 %

COLOUR

Slight differences in the hue of coloured sheets may occur from batch to batch. We therefore advise you to use only sheets from the same batch for each individual project.

LENGTH / WIDTH (STANDARD):

≤ 2000 mm -0/+6 mm
 > 2000 mm -0/+3 mm/m

LENGTH / WIDTH (CUT ON-LINE):

700 - 2000 mm ± 2 mm
 2001 - 3000 mm ± 3 mm
 3001 - 4000 mm ± 4 mm
 4001 - 5000 mm ± 5 mm
 5001 - 6000 mm ± 6 mm

LENGTH / WIDTH (CUT OFF-LINE):

0 - 1500 mm ± 0.5 mm
 1501 - 3000 mm ± 1.0 mm
 3001 - 6000 mm ± 2.0 mm

SHRINKAGE:

≤ 2 mm thickness max. 6 %
 ≥ 3 mm thickness max. 3 %

RECTANGULARITY (STANDARD, DIFFERENCE IN LENGTH BETWEEN DIAGONALS):

Shall be less than 0.35% of the width of the sheet or 2 mm, whichever is the higher.

Other tolerances are only available on request.

Sheets produced according to previous edit of product tolerances, might differ from actual tolerances and will be supplied as long as available in our warehouse.

makrolon®

The manner in which you use and the purpose to which you put and utilize our products, technical assistance and information (whether verbal, written or by way of production evaluations), including any suggested formulations and recommendations, are beyond our control. TOLERANCE ON THICKNESS MULTI WALL SHEETS

Thickness in mm	Tolerance
all types	± 0,5 mm

COLOUR

Slight differences in the hue of coloured sheets may occur from batch to batch. We therefore advise you to use only sheets from the same batch for each individual project.

LENGTH (STANDARD, CUT ON-LINE):

< 4000 mm	-0/+12 mm
4000 - < 5000 mm	-0/+16 mm
≥ 5000 mm	-0/+20 mm

WIDTH (STANDARD, CUT ON-LINE):

-2/+6 mm

FLATNESS IN DIRECTION OF EXTRUSION (STANDARD):

≤ 3 mm/m

FLATNESS CROSSWISE IN DIRECTION OF EXTRUSION (STANDARD)

≤ 4 mm/m

RECTANGULARITY (STANDARD, DIFFERENCE IN LENGTH BETWEEN DIAGONALS):

Shall be max 0.35% of the width of the sheet

LATERAL CURVATURE

Valid for sheets with closed edges as well as for sheet cut on both sides along the ribs (ex works or by the cus-tomer) with a minimum width of 800 mm: ≤ 4 mm/m - max. 20 mm.

Other tolerances are only available on request.

DECLARATION OF PERFORMANCE/ CE-MARKING FOR MAKROLON® MULTI & SOLID SHEETS

For all **multi and solid sheets** in our catalogue we have a CE marking in accordance with EN 16153 available.

A document with a declaration of performance for each type of multi or solid sheet can be downloaded from our website, under "Documentation – DoP".

Link to DoP No. : <http://www.sheets.covestro.com/en/Products/Europe/DOP.aspx>

Please enter the existing DoP (declaration of performance) number here. You can find it printed on the longer side of our multi or solid sheets or on the adhesive CE label on the pallet packaging.

For further information please get in touch with your contact at our technical service center.

Our technical data sheets provide further technical information on the types of solid & multiwall sheets. The latest versions of the respective data sheets can be downloaded from our website.

MAKROLON® MULTI UV 2/16

The strong one of the twinwall sheets with a warranty of 20 years on weathering and hail resistance. Makrolon® multi UV 2/16 is a twinwall sheet, extruded with Makrolon® polycarbonate resin and a superior UV-protection on both sides and an excellent load bearing. The sheet has a high hail resistance classification according to Swiss standards..

The manner in which you use and the purpose to which you put and utilize our products, technical assistance and information (whether verbal, written or by way of production evaluations), including any suggested formulations and recommendations, are beyond our control. Therefore, it is imperative that you test our products, technical assistance, information and recommendations to determine to your own satisfaction whether our products, technical assistance and information are suitable for your intended uses and applications. This application-specific analysis must at least include testing to determine suitability from a technical as well as health, safety, and environmental standpoint. Such testing has not necessarily been done by Covestro. Unless we otherwise agree in writing, all products are sold strictly pursuant to the terms of our standard conditions of sale which are available upon request. All information and technical assistance is given without warranty or guarantee and is subject to change without notice. It is expressly understood and agreed that you assume and hereby expressly release us from all liability, in tort, contract or otherwise, incurred in connection with the use of our products, technical assistance, and information. Any statement or recommendation not contained herein is unauthorized and shall not bind us. Nothing herein shall be construed as a recommendation to use any product in conflict with any claim of any patent relative to any material or its use. No license is implied or in fact granted under the claims of any patent.

MAKROLON® MULTI UV 5M/ 32

Makrolon® multi UV 5M/32 is a 9-wall M-structured sheet, extruded with Makrolon® polycarbonate resin and a superior UV-protection on the external side. The sheet offers excellent thermal insulation, extreme structural stiffness in combination with an optimised weight and good load bearing properties.

MAKROLON® UV CLIMATE CONTROL

Makrolon® UV ClimateControl are transparent polycarbonate sheets with a protective UV-coating on both sides. The sheets substantially reduce high temperatures caused by sunlight as they block out the majority of infrared light.

DESCRIPTION

Makrolon® UV CC

Thickness:		1,20 g/cm ³
Light transmission : (at 3 mm)	blue	2555 : 55%
	green	2655 : 55%
	bronze	2855 : 55%
	grey	2755 : 55%
	clear	2080 : 80%

ON REQUEST RANGE

makrolon®

MAKROLON® VISTA QX

Makrolon® Vista has an improved optical quality, with minimal inclusions and high surface quality, backed up by an on-line inspection system. Makrolon® Vista QX90 and QX200 have on top improved diopter values. Makrolon® Vista QX7 and QX90 are suitable for applications which will be hard coated afterwards. Makrolon® Vista QX10 and QX 200 have a further enhanced surface quality, for high level applications.

makrolon®

MAKROLON® SX

Makrolon® SX sheets are light shaping and de-glaring sheets. The microprismatic sheets offer excellent optical efficiency thanks to special polycarbonate grades and the microlense surface pattern with 124,8 lpi. If placed parallel or perpendicular to LED lines (strips), they provide light diffusion in lenticular (linear) direction in a very efficient way, also in very thin fixture profiles. In other positions, they shape the light in dynamic forms.

The linear micro-prism structure runs in the length along the extrusion direction. The light ray is rendered perpendicular to the lenticular micro-prism.

DESCRIPTION

Makrolon® SX

MAKROLON® SX SHARP

Solid Makrolon® SX Sharp sheets are clear polycarbonate sheets with a microstructure* optic on one side and gloss surface on the other. It is specifically designed for glare control function in lighting. Makrolon® SX Sharp features a combination of high light transmission and light shaping. Due to the micro-lenses it provides effective de-glaring to obtain very low UGR values in lighting applications. Makrolon® SX Sharp gives an even light intensity distribution (= low peak intensity). This peak shielding gives a significant improved comfort. When looking into the luminaire, it gives a softer effect and prevents blinding. Makrolon® SX Sharp comes without UV-protection and is therefore the perfect choice for indoor lighting solutions

makrolon®

MAKROLON® DX SKY

Makrolon® DX Sky are colourless, transparent refractor (diffuser) sheets with a microstructure. They are designed for enhanced light control of LED-based luminaires and have been developed to distribute the light uniformly with a light intensity distribution curve, which is best suited for most common lighting luminaire applications. Even for smaller light sources like LEDs, a homogenous light emitting area can be obtained, with fair glare control.

VIVAK®

The manner in which you use and the purpose to which you put and utilize our products, technical assistance and information (whether verbal, written or by way of production evaluations), including any suggested formulations and recommendations, are beyond our control. Therefore, it is imperative that you test our products, technical assistance, information and recommendations to determine to your own satisfaction whether our products, technical assistance and information are suitable for your intended uses and applications. This application-specific analysis must at least include testing to determine suitability from a technical as well as health, safety, and environmental standpoint. Such testing has not necessarily been done by Covestro. Unless we otherwise agree in writing, all products are sold strictly pursuant to the terms of our standard conditions of sale which are available upon request. All information and technical assistance is given without warranty or guarantee and is subject to change without notice. It is expressly understood and agreed that you assume and hereby expressly release us from all liability, in tort, contract or otherwise, incurred in connection with the use of our products, technical assistance, and information. Any statement or recommendation not contained herein is unauthorized and shall not bind us. Nothing herein shall be construed as a recommendation to use any product in conflict with any claim of any patent relative to any material or its use. No license is implied or in fact granted under the claims of any patent.

VIVAK® COLOR LINE

Whatever you're planning, Vivak® ColorLine will make your colour dreams come true. With the solid transparent sheets by Bayer MaterialScience, 20 new colours are available as standard with a 250 kg minimum order depending on the thickness of the sheet (2-8 mm). Other shades can be provided on request.

DESCRIPTION

VIVAK® ColorLine

Density: 1,27 g/cm²
