

Makrolon® RX-Line

Solid polycarbonate sheet for LED lighting

I Line
Innovative

Your benefits:

- extreme high light reflection and high opacity at the same time
- excellent fire properties
- extreme impact strength
- resistance to wide range of temperature

Solid **Makrolon® RX** sheets are highly reflective opaque solid polycarbonate sheets. **Makrolon® RX** is developed for applications based on LED light sources, which do not emit UV light. It offers a combination of Lambertian light reflectance of incident light with the opacity and exhibits excellent fire behavior and high impact strength. Makrolon® sheets resist temperatures of -100 to +120 °C. **Makrolon® RX** sheets can be thermoformed, cut, punched or otherwise fabricated with ease.

Makrolon® RX is an ultra-white opaque sheet offering a combination of high light reflectance in the LED spectral range together with its very high opacity.

Applications:

Typical applications for **Makrolon® RX** sheets are LED light fittings and fixtures, e.g.:

- flat and thermoformed reflectors,
- components of lamp interiors,
- external (housing) parts,
- indirect lighting
- back reflectors in edge-lit panels.

	Test Conditions	Makrolon RX ⁽¹⁾	Unit	Test Method

Makrolon® RX-Line

Solid polycarbonate sheet for LED lighting

Ideas, innovative, intelligent, interesting... Exolon Group i-line represents the next generation of quality products. This seal guarantees innovative and intelligent first-class solutions at all times for a multitude of requirements.

Optical Properties:

Test Method according to DIN EN ISO 13468-2

Makrolon® Type	RX
Light reflectance D65	> 96%
YI D65	< 2
gloss60° (ISO 2813)	< 110

Dimensions:

Thicknesses: **Makrolon® RX** line is available in 1.0 mm.

Sizes: **Makrolon® RX** line is available in 1.250 x 2.050 mm

Upon request and quantity requirements, other dimensions can be offered

Permanent Service Temperature:

The permanent service temperature without load is approx. 120 °C.

Fire Rating (*):

	Makrolon® RX
Sample thickness (mm)	1.0
UL 94	V-2**

*) Fire certificates are limited in time and scope, always check if the mentioned certificate is valid for the purchased polycarbonate sheet type at the date of delivery. Polycarbonate sheets may change their fire behavior due to ageing and weathering. The indicated fire rating was tested on new / unweathered Product in accordance with the indicated fire classification standards.

**) Only indicative test result, no Yellow Card.

Glow Wire Flammability Tests:

Test method according to IEC 60695-2-12

Glow Wire Flammability Index (GWFI):	Makrolon® RX	1 mm:	850°C
Glow Wire Ignition Test (GWIT):	Makrolon® RX	1 mm	850°C
