

Makrolon® multi UV 2/16-30

Quality aesthetics right down to the last wall
Simple structure – brilliant resilience

Makrolon® multi UV 2/16-30

Doubling up on strength

Why not try it out?

Makrolon® multi UV 2/16-30 is an innovative new addition to our range of multiwall sheets. In addition to being highly impact-resistant, the brilliant surface is also more than capable of dealing with severe weather conditions. Aesthetics and excellent performance are united in a new product type.

Good on the eye.

Are you looking for a sheet material that offers the visual properties of acrylic glass and the impact resistance of Makrolon®? With the twinwall-sheet Makrolon® multi UV 2/16-30 we offer the best of both worlds in regards to aesthetic design, transparency and safety. With an excellent load bearing capacity and two side UV protection, the sheet is adept at withstanding all kinds of environmental conditions.

A 20 year weather/hail resistance warranty also sets a new precedent. A clear improvement in surface quality offers sunny prospects with regard to new or existing areas of application. Makrolon® multi UV 2/16-30 is available in a thickness of 16 mm. Thanks to its robust design, the sheet has a high load bearing capacity. The sheets can be ordered in various colours and are available in the sheet widths 980 mm and 1200 mm as standard. The sheets are also UV protected on both sides, so the sheet will always be installed the right way up! Furthermore, the material can be used right down to the very last metre meaning that large unusable areas of sheet, are now a thing of the past.

Prospective areas of application:

- Roofs for
 - Verandas
 - Carports
 - Canopies
 - Train station roofs
- Retail greenhouses
- Restoration of glazed surfaces
- Hall skylights

Fantastic advantages at a glance:

- brilliant surface
- excellent load bearing capacity
- quiet, no drumming effect with heavy rain
- 20 year weather/hail resistance warranty
- two side UV protection

Makrolon® multi UV

Multiwall sheets for various areas of application and giving you more freedom in design.

The Makrolon® multi UV product line comprises transparent, weather-resistant multiwall sheets, which are available in different sheet thicknesses and are protected by a UV coating. All the designs stand out due to their exceptionally high impact resistance, high transparency and low weight.
